(54) Title: METHOD AND APPARATUS FOR GROUPING CONTENT ITEMS

100

WO 2004/089397 A3

(57) Abstract: The invention relates to a system for grouping content items. A consumer equipment or computer (100) comprises a grouping principle processor (109) that determines a content item grouping principle used by a user to group content items such as music files, video files or email. The content item grouping principle is determined in response to a grouping category scheme, such as a folder structure used to store content items. The apparatus (100) further comprises a classification characteristic processor (113) for determining a classification characteristic of a new content item. For example the classification characteristic may relate to an artist of a music file and the content item grouping principle may comprise a list of folders which comprise music files associated with specific artists. The apparatus (100) additionally comprises a grouping processor (115) for grouping the first content item with other content items by comparing the determined classification characteristic with the information of the content item grouping principle.

A. CLASSIFICATION OF SUBJECT MATTER  
IPC 7 G06F17/30

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)  
IPC 7 G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, INSPEC, WPI Data, IBM-TDB, COMPENDEX

## \* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the International filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the International filing date but later than the priority date claimed

- \*T\* later document published after the International filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \*&\* document member of the same patent family
